

Risk Assessment facilitation

Risk assessment is now a part of every industry. One of the services that we can provide for your company or work site is Risk Assessment Facilitation.

We can either have our facilitator go to your site and be part of your team for the process, or we can conduct the assessment at our rooms here in Rockhampton.

Our facilitator is experienced in both the mining and building industries and is suitably qualified to assist you in the process or actually facilitate the assessment.

Please contact CHSS for further details.
